

SURE GRIP Magnetic Power Head Holders

Thank you for purchasing your Sure Grip Magnetic Power Head Holder. Sure Grip is a magnetic holder for power heads, used to replace original brackets and/or suction cups. It can be placed anywhere on the wall of your glass or acrylic aquarium. There are 2 strengths of holders. I hope you will find it an excellent addition to your aquarium equipment.

Contents: 2 magnetic housings, 8 sticky-backed rubber feet and 4 different plastic brackets.

Please refer to the diagrams below or on reverse side to ensure that you are using the correct power head bracket on your Sure Grip magnetic power head holder.

Assembly: Take each of the housings and place the sticky-backed rubber feet in each of the recessed holes. Press firmly for 5-10 seconds. Now take the bracket labeled for your power head (refer to the diagrams below) and slide it on to one of the magnetic housings. This will now be the inner housing. Slide the power head onto that bracket. You are now ready to position the power head in your tank. Hold the inner housing with power head and position it inside the aquarium. Now slowly slide the outer housing on the outside of the aquarium adjacent to the inner housing until they engage.

Warning: Algae Free's Sure Grip Holders are NOT TOYS! Keep away from children! Sure Grip magnetic holders contain very strong magnets. Whenever handling these magnets, caution must be used or injuries (especially painful pinching) may occur. Keep magnetic products away from electronic equipment, other magnets, pacemakers and medical devices. Failing to do so may result in permanent damage to such devices.

Tunze Stream - All models

For the Tunze Stream you will need to use the two Tunze adaptors (not included) pictured below as well as the pictured bracket from this package.

Seio Rio - Super Flow - M620, M820, M1100 & M1500

For the Seio power heads there are 2 different brackets included: one for the M620 & M820 models (smaller bracket) and one for the M1100 & M1500 models (larger bracket). You will need to decide how you want to mount your Seio power head – vertically or in a power head fashion (see below).

Maxi-Jet - 400, 600, 900 & 1200

For the Maxi-Jet you will only need the bracket (included), pictured below.

Limited warranty:

Algae Free warrants to the original purchaser that this product will be free from defective workmanship and materials. Algae Free will replace or repair a defective product or part at no charge for 1 year from the date of purchase. Please visit our web site at www.aquariumcleaners.com in order to utilize your warranty rights. Burden of proof of purchase falls upon the purchaser.
